

# Subjects

**American Real Estate Society (ARES)**  
noteworthy valuation-related papers from the American Real Estate Society annual meeting, 271-273

**Appraisal forms**  
clarifications needed when using the Supplemental Real Estate Owned Appraisal Addendum, 365-369

completing Fannie Mae's new "Market Conditions Addendum" (Form 1004MC), 215-223

**Awards**  
Academic Article Award, vi (Spring)  
Appraisal Journal Outstanding Service Award, viii (Spring)  
Armstrong/Kahn Award, iv (Spring)  
Swango Award, v (Spring)

**Built-to-suit properties**  
sale/leaseback arrangements for custom-built commercial properties, 60-61  
using the cost approach to value custom-built commercial properties, 65-65  
valuation of interests in built-to-suit commercial properties, 60-65

**Bundle of rights**  
rights and interests in leased properties, 60-65

**Business enterprise value**  
business enterprise value component of overall property value, 67-68

**Business real estate interests**  
developing a business capitalization rate, 131-133

**Buyer sentiment**  
impact of hurricane risk on home-buyer sentiment, 338-347

**Capitalization rates**  
capitalization rates and the published market information in investor surveys, 52-59

converting discount rate to capitalization rate, 132-133

deriving capitalization rates from public REIT market, 357-364

determining capitalization rate to be applied in residual income methodology, 129-133

developing a business capitalization rate, 131-133

developing an equity discount rate, 131-132

market price and capitalization rates for commercial property in Ukraine, 148-154

reconciling differences between the theoretical relationship of discount rates and overall capitalization rates and the published market information in investor surveys, 52-59

**Caves**  
calculating excess rent and contributory value of show cave to real estate value, 135-134

components of show caves, 126-127

**Ceilings**  
price effects of specialty ceilings in residential real estate, 117-125

**Charter schools**  
charter school features affecting valuations, 249-251

government funding of charter school programs, 248-249

history of charter school movement, 247-248

three approaches to value and their use in valuing charter schools, 251-252

**Commercial property**  
market prices and capitalization rates for commercial real estate in the Ukraine, 148-154  
valuation of built-to-suit commercial properties, 60-65

**Comparable sales**  
analyzing financing arrangements and sales concessions in comparable sales, 18-23

finding comparable sales and market data for charter schools, 250-251

use of comparable sales in valuing show caves, 128, 131

use of sales comparables in litigation, 259-262

using comparable landfills to measure potential impact of a proposed landfill, 32-33

**Condominiums**  
condominium longevity extended by maintenance factors, reserves, and occupancy profile, 38-45  
condominiums in Hawaii on leased land, 38, 45-50

ground leases with surrender clauses require analysis of contributory value of the improvements, 46-50

impact of facade easements on condominium value, 329-337

**Conservation easements**  
conservation easements defined, 319-320

impact of a conservation easement on neighboring property, 322-323

valuing conservation easements, 320-322, 324-327

**Cost approach**  
overall value and the cost approach, 72-73

using the cost approach to value custom-built commercial properties, 65-65

using the cost approach to value family entertainment properties, 128

**Court cases**  
recent state court decisions, 1-5, 91-96, 187-191, 297-301

**Custom-built properties**  
(see built-to-suit properties)

**Deception**  
deceptive financial statements in real estate transactions, 140-142

deceptive purchase agreements in real estate transactions, 139-140

misrepresentation of occupancy and tenancy in real estate transactions, 142-143

misrepresentation of property characteristics in real estate transactions, 143

undisclosed conditions negatively affecting value of sale property, 143-144

unrealistic projections of sales, income, and expenses of sale property, 144

**Demographic information**  
demographic variables in shopping center market analysis, 155-163  
population, households, and families data, 157

**Discount rates**  
reconciling differences between the theoretical relationship of discount rates and overall relationship between discount rates and capitalization rates, 52-53

**Discounted cash flow analysis**  
comparing differences in cash flows in investor surveys, 53-54

deceptive financial statements in real estate transactions, 140-142

deceptive purchase agreements in real estate transactions, 139-140

misrepresentation of occupancy and tenancy in real estate transactions, 142-143

misrepresentation of property characteristics in real estate transactions, 143

undisclosed conditions negatively affecting value of sale property, 143-144

unrealistic projections of sales, income, and expenses of sale property, 144

**Demographic information**  
demographic variables in shopping center market analysis, 155-163  
population, households, and families data, 157

**Discount rates**  
reconciling differences between the theoretical relationship of discount rates and overall relationship between discount rates and capitalization rates, 52-53

**Discounted cash flow analysis**  
comparing differences in cash flows in investor surveys, 53-54

discounted cash flow and changes in terminal value estimates 55-58

#### **Documentation**

verifying information in sales transactions to prevent fraud, 136-145

#### **Economic life**

short economic life may result in demolition of improvements not reached the end of their useful life, 38-45

#### **Entrepreneurial incentive**

extra-minimum entrepreneurial incentive (EMEI), 352-354

required minimum entrepreneurial incentive (RMEI), 352-355

using macroeconomic data to demonstrate entrepreneurial profit and incentives, 349-352

#### **Entrepreneurial profit**

using macroeconomic data to demonstrate entrepreneurial profit and incentives, 349-352

#### **Expert witness testimony**

admissibility in court of multiple regression analysis as valuation technique, 253-262

court decisions and rules affecting admissibility of valuation expert testimony, 252-262

traditional use of matched pair analysis in expert witness testimony, 254, 256, 262

#### **External obsolescence**

entrepreneurial incentive and external obsolescence inversely related, 350-352

required minimum entrepreneurial incentive not reduced by external obsolescence, 352-355

#### **Facade easements**

impact of facade easements on condominium value, 329-337

preservation easements as a combination of a facade easement and a development rights easement, 319-320

#### **Feasibility analysis**

feasibility rent analysis to show magnitude of depreciation in custom-built property, 63-65

#### **Fee simple estate**

difference between fee simple estate and leased fee, 61

three approaches to value and market value of the fee interest, 61-63

valuing interests in built-to-suit commercial properties, 60-65

#### **Fraud**

fraud detection checklist, 147

identifying fraudulent information in real estate transactions, 136-145

#### **Hedonic modeling**

using a hedonic pricing study to measure the price effect of a specialty ceiling, 117-125

#### **High-voltage transmission lines (HVTLs)**

case study of price effects of transmission lines on sale prices of homes, 230-245

review of literature on effects of high-voltage transmission lines, 228-230

testing the effects of transmission line proximity, visibility, and easements, 234-238

#### **Historic preservation**

charitable contribution of conservation easement and tax law, 319-329

conservation easements defined, 319-320

historic preservation laws and regulations, 330-331

impact of conservation easement on neighboring property, 322-323

impact of facade easements on condominium value, 329-337

preservation easements as a combination of a facade easement and a development rights easement, 319-320

qualified appraisals and qualified appraisers for easement valuations, 327-328

valuing conservation easements, 320-322

valuing preservation easements, 323-327

#### **Home price**

impact of facade easements on condominium value, 329-336

impact of hurricane risk on home price and days on market, 338-346

specialty ceilings as a physical feature affecting prices of homes, 117-125

#### **Housing markets**

analysis of housing market for "Market Conditions Addendum," Form 1004MC, 213-223

decline in housing market in Europe, 203-205

housing market supply in Europe, 211-212

mortgages and residential lending in Europe, 206-211

#### **Hurricanes**

impact of hurricane risk on home price and days on market, 338-346

#### **Hypothesis testing**

hypothesis testing in the real world, 372

validity and reliability essential for credible testing of hypothesis, 372-374

#### **Income capitalization approach**

overall value and the income capitalization approach, 71-72

using the income residual model in valuing a show cave, 129-134

#### **Income-producing property**

ground lease reversions in valuation of income-producing properties, 37-51

valuation of built-to-suit commercial properties, 60-65

#### **Income residual method**

calculating return on and return of capital for improved property risk, 130-131

determining capitalization rate to be applied in residual income methodology, 129-133

using the income residual method to value a show cave enterprise, 129-134

#### **Intangible assets**

allocation of assets of nursing facility business, 265-266

allocation of assets of a show cave, 126-135

intangible assets as part of value of a show cave, 127

intangible personal property of nursing facilities, 265

#### **International appraising**

housing market developments in Europe, 213-223

market prices and capitalization rates for commercial real estate in the Ukraine, 148-154

using mortgage lending value in property valuation in Germany, 312-318

#### **Investor surveys**

capitalization rates different than capitalization theory would indicate, 53-54

comparing differences in cash flows in investor surveys, 53

investor surveys reflect smaller differentials between discount rates and overall cap rates, 53

#### **Landfills**

characteristics of landfills, 25-26

collecting market data on comparable landfills, 33-34

evaluating potential value impacts of a proposed landfill, 24-36

summary of landfill impact studies, 28-32

**Leasehold interest**

distinguishing the fee simple interest and leased fee in valuation of built-to-suit properties, 60-65

leased fee cash flow analysis, 47-29

leased fee valuation of ground leases, 37-51

**Leases**

condominiums in Hawaii on leased land, 38, 45-50

feasibility rent analysis, 63-65

ground leases with surrender clauses require analysis of contributory value of the improvements, 46-50

leases and bundle of rights to be valued, 60-61

valuation of interests in built-to-suit properties, 60-65

valuation of leased fee interest in a long-term lease requires estimation of life of improvements, 37-51

**Market analysis**

data sources and market indicators for market analysis, 216-222

market analysis in residential housing market, 213-223

performing market analysis for "Market Conditions Addendum" (Form 1004MC), 213-223

six-step market analysis process, 215-216

sources of residential transaction data for residential market analysis, 216-221

**Market data**

collecting market data on potential value impacts of a proposed landfill, 33-34

data sources for local economic analysis, 161-163

demonstrating the relationship of value and size, 164-174

finding comparable sales and market data for charter schools, 250-251

major economic and demographic variables in shopping center analysis, 156-157

population, households, and families data, 157

using macroeconomic data to demonstrate entrepreneurial profit and incentives, 349-352

**Market price**

market price and capitalization rates for commercial property in Ukraine, 148-154

**Market rent**

identifying market rent for custom-built properties, 60-65

**Market value**

defining market value in REO appraisals, 366

value in use distinguished from market value, 61

**Matched pairs**

traditional use of matched pair analysis in expert witness testimony, 254, 256, 262

**Misrepresentation**

fraudulent financial statements, 140-142

misrepresentation of occupancy and tenancy in real estate transactions, 142-143

misrepresentation of property characteristics in real estate transactions, 143

undisclosed conditions negatively affecting value of sale property, 143-144

unrealistic projections of sales, income, and expenses of sale property, 144

**National Council of Real Estate Investment Fiduciaries (NCREIF)**

NCREIF Valuation Committee meeting notes, 224-226

**Negative externalities**

evaluating potential value impacts of a proposed landfill, 24-36

summary of landfill impact studies, 28-32

testing the effects of high-voltage transmission lines on sale prices of homes, 230-245

**Nursing facilities**

allocation of assets of nursing facility business, 265-266

intangible personal property of nursing facilities, 265

nursing facilities ownership structures and issues, 266-268

real estate assets of nursing facilities, 264-270

tangible personal property of nursing facilities, 264-265

valuing for-profit and nonprofit nursing facilities, 268

**Overall value**

distinctions between sources of overall value definitions, 69-73

legal definitions of overall value, 69

overall value and the cost approach, 72-73

overall value and the income capitalization approach, 71-72

relationship between overall property value and its parts, 66-76

sources of definitions of overall value, 69-74

**Partial interests**

impact of facade easements on value, 329-336

**Physical characteristics**

price effects of specialty ceilings in residential real estate, 117-125

**Price**

impact of hurricane risk on home price and days on market, 338-347

specialty ceilings as a physical feature affecting prices of homes, 117-125

**Profit**

accounting profit compared to entrepreneurial incentive, 353-354

distinguishing between definitions of profit, 348-356

extra-minimum entrepreneurial incentive (EMEI), 352-354

required minimum entrepreneurial incentive (RMEI), 352-355

using macroeconomic data to demonstrate entrepreneurial profit and incentives, 349-352

**Property ownership interests**

identifying the property interest to be valued in an appraisal, 60-65

**Property value impairment**

evaluating potential value impacts of a proposed landfill, 24-36

summary of landfill impact studies, 28-32

testing the effects of high-voltage transmission lines on sale prices of homes, 230-245

**Proximity**

evaluating potential value impacts of proximity to a landfill, 24-36

**Real estate investment trust (REIT)**

deriving capitalization rates from public REIT market, 357-364

**Real estate owned (REO) transactions**

clarifications needed when using the Supplemental Real Estate Owned Appraisal Addendum, 367-368

deficiencies in Supplemental Real Estate Owned Appraisal Addendum, 367

defining market value in REO appraisals, 366

REO liquidation value, 367-368

**Regression analysis**

admissibility in court of multiple regression analysis as valuation technique, 253-262

essence of multiple regression analysis, 255-256

use of explanatory variables, 255

## Research

research design, hypothesis testing, and sampling, 370-382

research reliability, 374

research validity, 373-374

sampling methodologies, 374-377

sampling error, 378-380

## Reversions

contributory value of improvements must be considered in valuation of reversions, 38-45

land-only reversion assumptions, 45-46

life expectancy of improvements must be estimated to determine potential for inclusion in reversion, 38-45

## Risk

determining enterprise risk for a show cave, 129-133

## Sales comparison approach

analyzing financing arrangements and sales concessions in comparable sales, 18-23

finding comparable sales and market data for charter schools, 250-251

use of comparable sales in valuing show caves, 128, 131

use of sales comparables in litigation, 259-262

use of sales comparison approach in valuing family entertainment properties, 128

using comparable landfills to measure potential impact of a proposed landfill, 32-33

## Scholarships

announcement of winners of Appraisal Institute Education Trust scholarships, 391-393

## Statistical analysis

hypothesis testing in the real world, 372

research design, hypothesis testing, and sampling, 370-382

research reliability, 374

research validity, 373-374

sample size, 380-382

sampling methodologies, 374-377

sampling error, 378-380

## Stigma effects

evaluating potential value impacts of a proposed landfill, 24-36

## Summation

principal of summation, 66-68, 75-76

## Tangible assets

allocation of assets of nursing facility business, 265-266

allocation of assets of a show cave, 126-135

tangible personal property of nursing facilities, 264-265

## Ukraine

market price and capitalization rates for commercial property in Ukraine, 148-154

## Value in use

value in use distinguished from market value, 61

## Verification

verifying information in sales transactions to prevent fraud, 136-145

## Weighted average cost of capital (WACC)

computing weighted average cost of capital, 153

## Cases in Brief

Adverse possession claimant must improve, cultivate, or enclose the land sought, 301

Advertising income is relevant in assessing compensation for billboard property, 189

Appraisal commissioned to resolve purchase-price dispute must conform to professional standards, 91

Appraisal of commercial property must reflect the land's income-producing potential, 95

Assessed value can be established without a certified appraisal for the relevant tax year, 2

City's undue delay in condemning property can constitute inverse condemnation, 4

City subject to county zoning plan has authority to waive distance restrictions provided under county ordinance, 299

Commission can deny building permit for failure to meet setback requirements despite lack of practicable alternatives, 300

Comparable sales may be given less weight when substantial adjustments are necessary to account for dissimilarities in the properties, 297

Comparable sales that occur after a taking can be considered in establishing fair value, 1-2

Condemnee entitled to compensation for business losses only when property is unique, 191

Derelict fee statute may not be used to satisfy minimum lot size required for building purposes, 93

Disinterested appraiser has arbitral immunity; expert appraiser has no immunity, 94

Increasingly frequent use of easement does not constitute excessive use, 92

Local government authority to regulate billboards includes power to ban all billboards, 5

Manufactured home's status as real property does not depend on surrender of motor vehicle title, 91-92

Nonconformity of a building is not increased when renovations are within footprint of original structure, 298

Nonuse of nature conservatory land does not constitute a tax exempt charitable use, 4-5

Property owner has no right to the continuation of public parking lots, 189
